SMART SOLUTIONS FOR THE LABELING INDUSTRY

AUTOMATIC LABEL OR METERS/FEET COUNTER SERIES

model **CE111**

model **CSR111**

Automatic Label or Meters/Feet Counter Series allows to count the labels on a roll, to rewind and unwind the labels on one machine, to rewind the labels onto different core sizes, to rewind small rolls of labels from a larger one and also to rewind small rolls with a preset number or meters/feet of labels from a larger roll. This last feature is possible thanks to the setting of the preset labels' number or meters/feet through the electronic counter. Once the preset number or meters/feet of labels will be reached, the label counter will stop by uttering an acoustic signal. Both turrets of the label counter are motorized and it is possible to adjust the speed of rotation on the rewinder only while the unwinder has an automatic self-adjustment speed.

Automatic Label or Meters/Feet Counter Series can handle labels up to 127mm wide and it can rewind and unwind rolls of labels with diameter up to 250mm. It has a speed of 120 rpm and it is possible to choose between two different types of core holder: the adjustable core holder from 40mm up to 118 mm or the core holder of 3 inch. Automatic Label or Meters/Feet Counter Series is available in many different versions and every model is marked by its own code. Through the table, it is possible to select the version better fitting your needs. The Automatic Label or Meters/Feet Counter turns in one direction only, from left to right. From the unwinder to the rewinder.

The "CLM" has the same features of the "CE" with the option to stop when the sensor detects a missing label.

Configuration table - Example CE114

MODULE	MODEL	UNWINDER CORE HOLDER	REWINDER CORE HOLDER
CE Label Counter	1	1 40 - 118 mm	1 40 - 118 mm
CM Meter counter	<i>Roll Diameter</i> 250mm	4 3" Fixed	4 3" Fixed
CLM Label Counter with missing label	<i>Speed</i> 120 rpm		
CSR Small reel to reel	<i>Label Width</i> 127mm
