SA4T (200dpi)

THERMAL PRINTER

PRINTER SPECIFICATIONS

CHARACTERISTICS

Technology	Thermal Transfer / direct thermal
Resolution	8 dots/mm (200 dpi)
Print Width	Maximum 104 mm
Print Speed	Up to 152.4 mm/sec (6 ips)
Interfaces	Bidirectional parallel port, USB 2.0, LAN (100BASE), serial port, wireless LAN
Barcodes	UPC/EAN/JAN, Code 39, Code 93, Code 128, EAN 128, NW7, MSI, Industrial 2 of 5, ITF, Postnet, RM4SCC, KIX-code, RSS14, Customer Bar Code
2D Codes	Data Matrix, PDF 417, Maxicode, QR code, Micro PDF 417, CP Code
Fonts	Bitmap font (21 fonts), Outline font (4 types), Price font (3 types)

OPTIONAL

	Cutter module, strip module, wireless LAN board, serial interface board, RFID modules, 300 dpi printhead, RTC (real time clock)
Dimensions	238 mm (W) x 402 mm (D) x 332 mm (H)
Weight	15 kg (without media and ribbon)

CUSTOMERS' BENEFITS

	High speed printing leading to increased efficiency and productivity
	Time-saving and minimal training due to fast and easy handling
	Lower servicing and maintenance cost with user toolless replacement of the print head and platen
	Versatile design to suit any environment or application
	Perfect readability of labels and barcodes due to flexible high quality
Print technology	Bartender UltraLite labelling software.

The B-SA4T ergonomic design makes the B-SA4T the printer of choice for any quiet office situation, whilst the superior quality output and exceptional performance ensures that it fits perfectly with robust industrial environments.

Speed and Functionality

This desktop printer with the performance of an industrial printer, offers high-speed printing and enhanced throughput via a large choice of network interfaces: parallel, USB 2.0 and internal LAN as standard, with optional serial, wireless LAN and RFID interfaces (HF and UHF). Future Proofing For future proofing, the B-SA4T is compatible with all legacy systems, TOSHIBA or non-TOSHIBA. The powerful BCI (programmable Basic Command Interpreter) allows the B-SA4T to print via non-TPCL data streams.

Compact and Robust

With a footprint close to A4 in size, the front opening, top loading design ensures the B-SA4T is compact, whilst the choice of casing (plastic or metal) guarantees the printer is ergonomic for the office or robust enough for harsh operating environments. This provides the flexibility to configure the printer to suit most applications, from desktop to industrial. Extras such as peel-off and cutter modules fit neatly inside the front cover, ensuring the printer remains compact.

Ease of Use

The graphical LCD display and simple to follow menu, ensures the user can set up and operate the B-SA4T with ease. The open-access front-loading feature, with a space saving ergonomic design, allows trouble-free drop-in media loading with a moveable sensor adaptable to a wide range of different types of media.
