Core Holder from 20mm on

model **BED01**

Label Width up to 150mm
Roll Diameter up to 300mm
Core Holder from 32mm on

Battery pack
(orange or blue)

The easy dispenser will assure you the maximum flexibility and the best efficiency/price ratio making it easy for you to apply labels in your semi-automatic manual labeling operations.

Two buttons will allow you to choose between a manual detachment of the label, that means to push the button when you want the label to be detached, or an automatic detachment, that means to take the labels automatically in succession.

Through a knob you can set the label's length to detach, from 5mm up to 170mm.

All the dispensers come with a top to write on the label before detachment and are supplied with an auto-switching 100/240V power supply with a protection 2A fuse. Accessories: Battery Pack (battery charge included), fanfold.
