

# BARTENDER BASIC

## SPECIFICATIONS

- Design and print labels, cards, mag stripe cards and more.
- Optimize print speed to any printer or marking device.
- Design data-entry forms that provide data validation and accept print-time input from the keyboard or a barcode scanner.
- Use our professionally designed templates or design your own.
- Let BarTender's smart wizards guide you through critical design decisions to maximize your printing performance and compliance with important standards.
- Select among 50+ drawing shapes, and resize, reshape and color them in just about any way imaginable.
- Use BarTender's hundreds of symbols and images, or import your own graphics.
- Use your own fonts or those built into the printer.
- Design your own forms for entering data at print time.
- Generate anything from simple serial numbers to advanced custom serialization sequences.

- > **Easy to use**
- > **Designed templates or design your own**
- > **Select among 50+ drawing shapes**
- > **Hundreds of symbols and images**
- > **Import your own graphics**

Designed for individuals and small departments, the BarTender Basic edition lets you start designing and printing barcode labels in just minutes thanks to its intuitive design tools and helpful wizards. BarTender gives you the design power and flexibility to satisfy the most demanding labelling needs. With this software, you can design your own forms for entering data at print time.

The BarTender Basic can generate anything from simple serial numbers to advanced custom serialization sequences. BarTender Basic includes the most frequently used label design features including all text, graphics, barcode and serializing capabilities.
