

BARTENDER PRO

SPECIFICATIONS

- Read data from CSV files, databases and Excel. Easily search and select records for printing.
- Encode RFID labels.
- Use our professionally designed templates or design your own.
- Let BarTender's smart wizards guide you through critical design decisions to maximize your printing performance and compliance with important standards.
- Select among 50+ drawing shapes, and resize, reshape and color them in just about any way imaginable.
- Use BarTender's hundreds of symbols and images, or import your own graphics.
- Use your own fonts or those built into the printer.
- Design your own forms for entering data at print time.
- Generate anything from simple serial numbers to advanced custom serialization sequences.

- **RFID encoding**
- **Rich Text formatting**
- **Link to external graphics to enable dynamic changes**
- **Enhances imported graphics**
- **Maximizes your printing performance with high standards**

Designed for departments and small businesses, the BarTender Professional edition offers the same easy interface as the Basic edition while enabling RFID encoding and more sophisticated label designs that average content from databases, spreadsheets and other files. BarTender Professional includes even more label design capabilities, and adds access to external data and support for RFID tags and labels.

BarTender Professional enhances imported graphics with high-quality image-processing controls including brightness, contrast, saturation, hue, sharpness, smoothing and cropping. Also, recreate legacy labels easily by importing old designs to use as a guide.
